**High Quality Flower
Bulbs for Fall Planting**

About this year's selections....

The events of recent years have taught all of us to appreciate value. As in the past, we have found many bulbs that are not only produce beautiful results but are also of excellent quality. Also, many varieties have lovely fragrance.

Unique Items

This year we sought out more unusual items that you won't find in local garden centers. For example, we have "California Firecracker" which is a heirloom native to the Pacific Northwest and "Red Mohican" which is an exciting new variety of allium.

Once again, we have "show bench quality narcissi"....

Once again we have selected extremely high quality varieties that produce high quality blooms that perform better than most in competition. If you are looking for something very special, look here. If you are a collector, if you like to enter your flowers in shows, or if you just want something unusual and very, very pretty, you can find what you want here. Quantities are limited, so please come early for best selection!

LOOK OUT FOR SOME EXTRA GOODIES FROM OUR GARDENS AT THE SALE. WE WILL HAVE SOME NICE SURPRISES AND EXCELLENT BARGAINS FOR YOU.

About our hyacinths...

Our hyacinths bulbs are much larger than most bulbs you will find in stores or in most catalogs. They are forcing & exhibition grade. If you are planning to force Hyacinths for indoor blooms, you should pot up the bulbs in mid-October and pre-chill them between 38 and 45 degrees for 10 to 12 weeks (with regular watering). Or, you may place them in hyacinth glasses (with water) and pre chill them for 10 to 12 weeks so that they may develop a good root system prior to blooming. After pre-chilling, they should bloom in nice sunlight in about 4 weeks!

Narcissus "Thalia"

We have carried this bulb since our first sale, and we have it once more because we love it so much. Thalia blooms later than most of the rest of the narcissi and therefore extend the season. They multiply rapidly, smell great and have multiple blooms per stem. What is not to like? When the garden club members were asked if we should feature Thalia again, the answer was clear. Yes! We want you to buy many and strew them across your yard. Therefore, we priced them to move! Mid Spring, Bulb size 12/14, 10"-12" Div 5

For only \$20 per year, you can become a member of the Leipers Fork Garden Club! **As a member,**

you will have access to special preorder pricing for our flower bulbs. Membership in the Leipers Fork Garden Club is great fun for anyone who is interested in gardening—whether you are a beginner or a “Master Gardener.” Each meeting features an interesting and educational presentation. We also share ideas, laughter and good food. This past year, members enjoyed lectures on wild bees as pollinators; growing fresh herbs, raising chickens, basic floral design, growing new plants from seed, growing shade gardens and much more. We meet at 6pm on the 3rd Thursday of each month except in December and August. Guests are always welcome at meetings as well.
